

Ionising Radiation (Medical Exposure) Regulations 2017 - IR(ME)R

PROSPECTUS

At Dental Training Ltd we aim to provide a comprehensive course delivered in a dynamic and motivational manner.

Available as an online course or in-house course.

Aim:

To ensure Dental Practitioners, Hygienists, Therapists and Dental Nurses who have obtained the Radiography Certificate are up to date of all legislation.

The GDC recommend that practitioners and operators undertake an IRMER course every 5 years.

Objectives:

The course includes the following topics:

1. The nature of x-rays, the risk of ionising radiation and principles of radiation protection in dental practices.
2. Radiation doses in dentistry, factors affecting dose and clinical justification.
3. The principles of a quality assurance programme.
4. Maintenance and testing of x-ray equipment.
5. Common problems.
6. Digital radiography.
7. Ways in which radiation dose can be reduced to both the patient and the dental team.
8. Legislation concerning dental radiography and statutory responsibilities.

5 hours of enhanced CPD and meets GDC Outcomes A, B,C and D
